+4673 - 580 28 74

mattiasson.sofia@icloud.com

A LANGUAGE

Swedish

English

C DRIVING LICENSE

Driving License B, access to own car

D SKILLS

C#, .NET, ASP .NET Core

SQL Server

HTML & CSS / Tailwind CSS

JavaScript

React / React Native

TypeScript

Node.js / express

Git / Terminalen

E PROGRAMS

Visual Studio & Code

Postman / Insomnia

Figma

Adobe PS / AI / ID

OTHER SKILLS

API development, testing, UX/UI,
Agile methods - Scrum

PROFILE

I am a creative and resourceful web developer with a curiosity for learning and exploring new technologies. I maintain a strong focus on quality and continuously seek ways to enhance my skills. I'm also passionate about using color, form, and user-friendliness to create positive user experiences, including API integrations.

WORKING EXPERIENCE

Brutal Beats

Webdevelopment -fullstack

Side project - Website for booking management

Teknologier: React, TypeScript, Tailwindcss, Node.js

2024/03 - 2025/03

Prodigies

App development - fullstack

Side project - App for student to find the perfect education

Technologies: React Native, TypeScript, SQLite, Firebase

2024/01 - 2024/08

Slowfashion

Backend App Development

Side project - App for shopping brands

Technologies: ASP.Net Core web api and C#

2023/11 - 2024/05

Omegapoint

Frontend development

LIA - build a PIM-system

Teknologier: React, TypeScript, React Qury, Axios, figma

2023/09 - 2024/12

Printagon Graphics

2013/02 - ongoing

Printing/Bookbinding/Warehouse, System Integration

Machine operator in bookbinding, assistant in printin, warehouse

Side project - Building an inventory management system with Blazor.

Teknologier: C#, ASP.NET, React, TypeScript, Material UI

EDUCATION

Frontend development

2022/09 - 2024/05

2-year Vocational Education in Frontend

Medieinstitutet, Malmö

Web Development within .NET

2020/08 - 2022/06

2-year Vocational Education in Backend / Full Stack

EC Utbildning, Helsingborg

Graphic Design

2005/08 - 2006/06

Graphic Technique, Design Language and Composition,
Illustration

Fridhems Folkhögskola, Svalöv

Web Design

2004/08 - 2005/06

Website design with Macromedia Dreamweaver

Fridhems Folkhögskola, Svalöv

**BEHIND THE SCREEN,
developer with a passion
for creativity**

Hello there!

I'm a curious problem-solver with a passion for programming and creativity in my blood. What I love most is taking ideas and turning them into user-friendly digital experiences.

My Journey in IT

It all started when I enrolled in a folk high school program in web design with general subjects. The following year, I deepened my knowledge in graphic design. My development journey took off with backend programming in .NET, where I learned to write stable, efficient, and maintainable code. Curiosity then led me to frontend development – where I discovered the power of JavaScript, React, and TypeScript. The combination of backend and frontend, along with experience in API development, has given me a broad technical foundation.

What I Can Offer

I'm not an expert in everything – but I'm a quick learner, unafraid of new challenges, and ready to contribute from day one.

My technical toolbox includes:

- .NET / C# / ASP.NET Core
- React / JavaScript / TypeScript
- HTML / CSS / Tailwind CSS
- Database management and API integration

What I don't know today, I'm more than willing to learn.

Right Now

I currently work at a printing company – but I devote my passion and energy to continuing my journey as a developer. In my free time, I work on several projects, including:

An internal inventory application for a company, where I combined database logic with user-friendly design. Other ongoing smaller projects for clients, where I get to develop both my technical and creative skills. You can read more about me and follow my continuously updated projects at: www.fianerd.se

More Than Just Code

In addition to technical skills, I bring:

- A sharp eye for detail
- A positive, solution-oriented mindset
- A strong desire for continuous growth – both individually and in a team

I look forward to being part of projects that inspire, challenge, and make a difference.

Thank you for taking the time to read!

Best regards,

Sofia Travnicek Mattiasson

Learning Objectives 2025

To create solutions that not only work but also make an impact. I strive to broaden my technical skills in the following areas:

C# and ASP.NET: Developing scalable backend solutions.

React: Creating dynamic and responsive user interfaces.

SQL: Improving my knowledge in database management and efficient data analysis.

Azure: Understanding how to build and manage cloud applications.

Docker: Streamlining development and deployment through containerization.

WordPress/Umbraco: Using and customizing CMS for website content.
